Nordica Monoblocco 1300 Piano Crystal

The inserts LA NORDICA-EXTRAFLAME have been studied under the banner of the maximum adaptability. The particular shape, the disappearing smoke outlet and the version H.49 allow the inserts to be fitted into mostly of the already existent fireplaces. The ventilation available in all the versions allow to reach in a very short time the desired temperature. The glass window, available in 3 different models, allow, with absolute safety, to enjoy the view of the crackling fire.

1300 Crystal Flat Monoblock: Safety, functioning and duration in time of LA NORDICA-EXTRAFLAME monoblocks are guaranteed by the achievement of prestigious European marks. Vanishing and sliding door on silent telescopic slides. Extractable ash drawer. Upper part completely made of very thick cast-iron.
