

Amesti Nordic 380

The Amesti Nordic 380 Wood Burning Stove has a maximum heat output 10.47kW. This front loading stove has a hinged door, security glass panel, a 3-stage air inflow and the unique Amesti clean burn system. The small log storage underneath the stove holds logs up to 30cm in length and the air injector allows for easy lighting.

Amesti have been developing clean burning efficient wood burning stoves for 27 years and are amongst the cleanest in the World. The unique clean burning process reaches the key 600 degrees temperature, with a 3-stage air inflow, giving particulates emissions below 2gr/hr. This makes the Amesti stoves a first choice if choosing a stove.

- Heat Output (kW): 10kW
- Flue Size: 150mm (6")
- Flue Options: Top Only
- Width: 410mm
- Height: 740mm
- Depth: 510mm
- Efficiency (%) : 78.4
- Weight: 77kg
