

Dovre Astroline 3 with a Pedestal

Cast iron has many advantages – durability, better heat retention and longevity, as well as the ability to be crafted into a huge variety of shapes and textures, giving aesthetic beauty and immediate appeal whether your interior style is traditional or contemporary.

Over the decades, Dovre's product range has been continuously developed and refined. Today, its wood burning and multi-fuel stoves offer advanced clean burn technology for improved combustion efficiency and care for the environment. Its air wash systems help keep the door glass clean, whilst there are also many models fuelled with the convenience of gas or electricity.

Whatever your choice - wood, multi-fuel, gas or electric – your Dovre stove or fireplace will be beautifully reliable and built to the uncompromising standards you would expect from our Scandinavian heritage.

With sleek and contemporary styling, Dovre's new Astroline 3 not only offers you an exceptional view of the fire but also a choice of two distinctive variants as well as either wood burning or multi-fuel versions of each. The state-of-the-art clean burn combustion system provides stunning flames within the firebox and these can be seen from more than 180° thanks to the angled glass side panels and the large main window. Combustion and efficiency is also aided by an outside air connection which can reduce draughts within your room.

- W x H x D: 515 x 1140 x 420
- Nominal Capacity: 8kW (270m³)
- Maximum Capacity: 10kW (335m³)
- Outlet Ø: 150mm
- Weight: 145kg
- Fuel: Multi-Fuel
- All cast iron construction
- Air was system
- High efficiency up to 76.7%
