

Dovre Astroline 4 with a Base

Cast iron has many advantages – durability, better heat retention and longevity, as well as the ability to be crafted into a huge variety of shapes and textures, giving aesthetic beauty and immediate appeal whether your interior style is traditional or contemporary.

Whatever your choice - wood, multi-fuel, gas or electric – your Dovre stove or fireplace will be beautifully reliable and built to the uncompromising standards you would expect from our Scandinavian heritage.

Similar in looks to the Astroline 3CB, this model is also available in either wood burning or multi-fuel versions and with a choice of pedestal or wood store bases. Featuring an extensive front window and glass side panels, you are able to enjoy to the full the exceptional swirling flames produced by Dovre's very latest clean burn system. An external combustion air facility also helps to reduce draughts in the room as well as improve heating efficiency – and with up to 10kW of warmth that's a very cosy thought for any winter's night!

- W x H x D: 475 x 1140 x 420
- Nominal Capacity: 8kW (270m³)
- Maximum Capacity: 10kW (335m³)
- Outlet Ø: 150mm
