

Jøtul F100

The Jøtul F100 offers all of the sophistication and styling of traditional Jøtul quality, integrated with the latest heating know-how, to bring you a stove that has been well thought-out when it comes to the needs of typical homes. Sized to fit most fireplace openings, measuring only 570 mm (H) by 526 mm (W) by 336 mm (D). There is also a “multi-fuel” version available with built in grate, which allows selected smokeless fuels besides wood to be used.

The Jøtul F100 may be small, but it doesn’t lack heat output. Capable of providing 7.0 Kw’s heat, Air wash and clean burn systems all as standard.
