

Morsø 5060

A choice for life.

When you eventually put this literature down, the likelihood is you'll be sold. You'll have fallen for Morsø's timeless look. You'll have fallen in love with cast iron's unique properties. And you'll be convinced of our stoves' obvious advantages for the environment.

But believe us – when you describe your relationship with your Morsø in the future, it won't be the design, the cast iron or the stove's green-friendly impact which will fuel your fondness. By then, your stove will have already become one of the most loved items of furniture in your home. A trusty source of comfort, you will love it for its sound, look and warmth. And for the glow of happiness it has spread throughout the house year after year. To choose a Morsø is, in other words, to make a choice for life.

"Gone are the days of smoky fireplaces", Morsø offers clean and effective fireplace options that can be easily installed into your home.

Our own team in Denmark designed the Morsø 5060 after looking carefully at the way interior design was moving forward. Homeowners are now demanding more than the dark 'hole in the wall' look that the standard fireplace offered. They expect good looks as well as heat to complement their homes.
