

## Morsø 8140

### A choice for life.

When you eventually put this literature down, the likelihood is you'll be sold. You'll have fallen for Morsø's timeless look. You'll have fallen in love with cast iron's unique properties. And you'll be convinced of our stoves' obvious advantages for the environment.

But believe us – when you describe your relationship with your Morsø in the future, it won't be the design, the cast iron or the stove's green-friendly impact which will fuel your fondness. By then, your stove will have already become one of the most loved items of furniture in your home. A trusty source of comfort, you will love it for its sound, look and warmth. And for the glow of happiness it has spread throughout the house year after year. To choose a Morsø is, in other words, to make a choice for life.

The raw and distinctive structure of the cast iron gives the wood burning stove Morsø 8140 an appearance that is both rustic and exclusive. The large, slightly convex glass window provides a perfect view of the dancing flames.

### Clean lines and practical details

Morsø 8140 is characterised by its pure and simple design. The combination of soft curves and simple details gives the stove a light and timeless appearance that can be enjoyed for many years to come. The side plate, top frame and top plate of the stove are designed with elegant and distinctive profiles that add to the exclusivity of the stove. The pure lines of the stove are further enhanced by the integrated and discreet hinges.
