

## Morsø 1630

### A choice for life.

When you eventually put this literature down, the likelihood is you'll be sold. You'll have fallen for Morsø's timeless look. You'll have fallen in love with cast iron's unique properties. And you'll be convinced of our stoves' obvious advantages for the environment.

But believe us – when you describe your relationship with your Morsø in the future, it won't be the design, the cast iron or the stove's green-friendly impact which will fuel your fondness. By then, your stove will have already become one of the most loved items of furniture in your home. A trusty source of comfort, you will love it for its sound, look and warmth. And for the glow of happiness it has spread throughout the house year after year. To choose a Morsø is, in other words, to make a choice for life.

The Dove has a completely traditional stove style, with its fine large door with curved glass, helping to emphasise the cosiness and create a romantic look. The stove was designed at Morsø in 1985 and has always been one of the more popular styles. The 1630 has a nostalgic look with added charm, making it ideal for older homes or country homes.
