

Morsø 3440

A choice for life.

When you eventually put this literature down, the likelihood is you'll be sold. You'll have fallen for Morsø's timeless look. You'll have fallen in love with cast iron's unique properties. And you'll be convinced of our stoves' obvious advantages for the environment.

But believe us – when you describe your relationship with your Morsø in the future, it won't be the design, the cast iron or the stove's green-friendly impact which will fuel your fondness. By then, your stove will have already become one of the most loved items of furniture in your home. A trusty source of comfort, you will love it for its sound, look and warmth. And for the glow of happiness it has spread throughout the house year after year. To choose a Morsø is, in other words, to make a choice for life.

We designed the stove together with the well-known, English design company, Queensbury Hunt Levien, retaining the classic Morsø lines and stylish look, while also integrating an advanced combustion system. The wide door with large stove glass provides a wonderful view of the flames, helping create both mood and heat in the home.

The 3400-series comprises three stoves: A 3410 radiant with owl motif, a 3420 radiant with ribbed sides and the 3440 convector with plain sides.

Rated output:	6kW
Heat output range:	4-7kW
Heats up m ² :	105m ²
Height:	739mm
Width:	554mm
Depth:	490mm
Flue diameter:	150Ø
Weight:	116kg

Wood stove - Easy to clean

The wood stove comes equipped a convenient ash pan, making it easy to remove excess ash. The large window is kept clean thanks to our 'state-of-the-art' air-wash system, whereby combustion air entering the stove is forced down the inner surface, thus maintaining an unobstructed view of the fire within. The Morsø 3440 wood stove can be fired with both wood and wood-briquettes.
