

## Scan 12 Double Sided

Scan has considerable experience in designing heating furniture. Simple, clean lines are the mark of good Danish design and this makes Scan one of the world's best-selling wood-burning stoves.

Designers have been involved in creating the stoves' appearance as well as how they operate, which is why Scan stoves are so easy to use. Emphasis has been placed on the size of the glass and the efficiency of the air wash system so that everyone can enjoy the sight of the fire burning with all its might

Scan DSA 12 is a fantastic built-in and perfect in every detail. There are no baffle plates to obscure your vision through the stove, yet the combustion is optimal. This is possible because of an innovative combustion technology developed especially for this product, which also has closed combustion as standard. Scan DSA 12 can be operated from both sides however the door on either side can be secured if you wish. This beautiful built-in is a truly innovative product with high quality in every detail and the flame view is as good as it looks
