

### Scan 57

Scan has considerable experience in designing heating furniture. Simple, clean lines are the mark of good Danish design and this makes Scan one of the world’s best-selling wood-burning stoves.

Designers have been involved in creating the stoves’ appearance as well as how they operate, which is why Scan stoves are so easy to use. Emphasis has been placed on the size of the glass and the efficiency of the air wash system so that everyone can enjoy the sight of the fire burning with all its might

Scan 57 comes with a turnable plinth which makes it possible to enjoy the flames from different angles. If you don’t need it to revolve it can be fixed. The wider combustion chamber takes logs up to 50 cm in length. The refined details in stainless steel make this stove a unique piece of furniture.

- Stove colour: Black
- Connection piece for fresh air intake Ø 100 mm: Yes (through the base)
- EN nominal performance (kW) \*): 7
- Est. operating range (kW): 3-9

- Room size approx. (m<sup>3</sup>): 75-126
- Efficiency % \*): 78
- Emissions (% CO at 13% O<sub>2</sub>)\*): 0.11
- Max. log length (cm): 55
- Distance to combustible materials, sides/rear (mm): 200 / 200 (revolving stove: see instructions for installation and use)
- Weight (kg): 204
- Fire box opening H x B (mm): 290 x 610
- Flue outlet (mm): Ø 155
