

Double Sided Free Standing Unit

For many people, an open fireplace is the cosiest way to keep warm.

A built-in fireplace fitted with a surround and mantelpiece is a beautiful feature in any home. These units are effective and economical fuel users and produce heat by way of convection and radiation. There is something magical about the atmosphere that an open fire creates and it will really turn your house into a home. These fireplaces are easy to operate and

to clean. Units with ash pits that can be cleaned from the outside are available on request. Use your fire optimally by installing a double-sided unit between two rooms. These units are fitted with heat resistant glass screens in order to regulate the direction of heat radiation. Surrounds, mantelpieces and toolsets can be used creatively to add a beautiful Victorian or modern effect to your home interior.

The 15 year guarantee against heat damage, faulty workmanship or material, along with Home Fires' after sales service will give you the peace of mind that you deserve.
