

OPTIONAL ITEMS FOR OUR BRAAIS & GAS GRILLS

SPIT MOTORS

220V MOTOR

Fits into the Spit Motor Housing(s) included on each Built In Braai Box.

3V BATTERY MOTOR

Attaches to our Roasting Domes, Table Braais and Portable Spit Grillers.

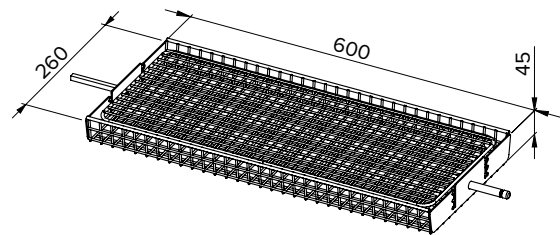

CHICKEN SPIT & SKEWERS

Capable of rotisserie cooking 2 pieces of meat weighing in total up to 5kg. It is good practice to centralise the meat as best as possible on the shaft to minimise motor wear and retain meat shape.

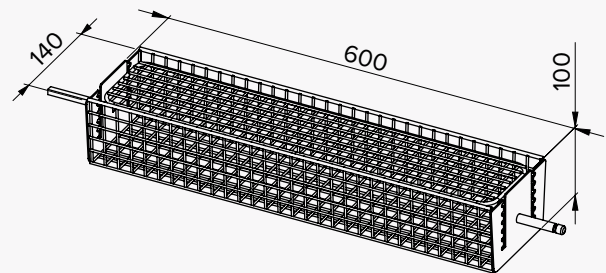

SPIT BASKET

Enables the easy cooking of slower cooking meats such as chicken flatties, wors and chops.

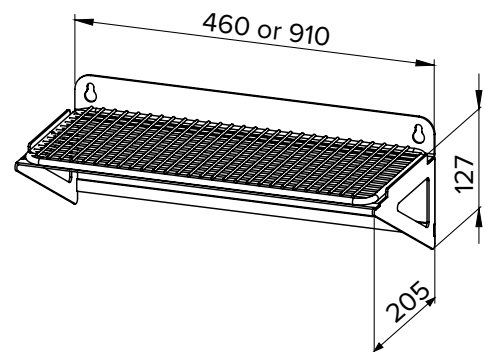

DEEP SPIT BASKET

Can hold up to 4 pieces of meat weighing up to a total of 5kg, for easy cooking.

CLIP IN WARMING GRID

Available in 460 mm or 910 mm sizes. These warming grids can easily clip into the braai above the cooking surface. Great for keeping cooked meat warm or warming bread.

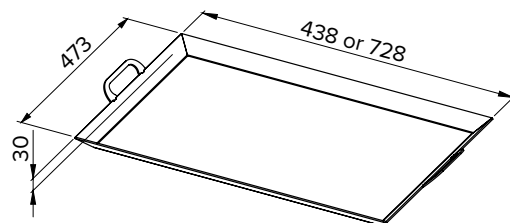

OPTIONAL ITEMS FOR OUR BUILT IN BRAAIS

BRAAI PLATE/WOK

Available in small or large size, these come c/w egg rings. Great for doing breakfasts, stir fries, fish & prawns.

DELUXE SIDWAYS OPENING DOORS

Our 1000 Multifunction Charcoal and Gas Braai offers 2 door options:

- Standard Fold Down and Slide In Door
- Sideways Opening Doors

The Sideways Opening Door option comes with light and rotisserie switches built into the door frame and a slide out table is supplied with the braai, to provide a convenient work platform in front of the braai whilst cooking.

Light & rotisserie switches are built into the frame of this sideways door option

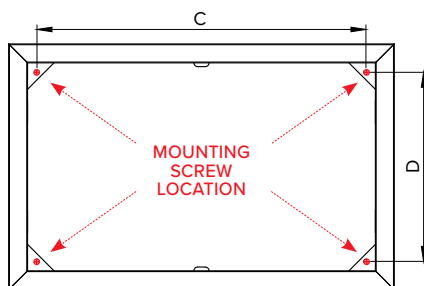

UNDER BRAAI / GAS GRILL CUPBOARD DOORS

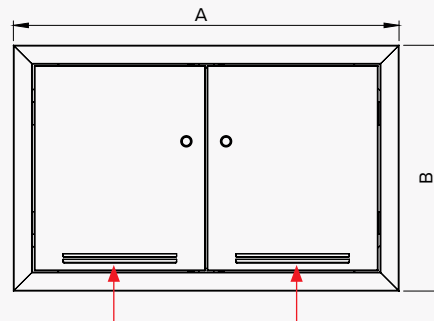

Whether you are cooking on a wood/charcoal braai or a gas braai there is often a need to store wood/charcoal or a 9kg gas bottle near the braai area.

We manufacture cupboard doors to match the look and size of our braais and gas grills. These doors are available in a range of steels.

Leave a recess of the correct size under the braai/gas grill you are installing and these cupboard doors will simple bolt onto the brickwork.

REQUIRED VENTILATION IN TERMS OF SANS 10087-1 TO ENABLE 1 X 9KG GAS BOTTLE TO BE LOCATED IN CUPBOARD

Our cupboard doors are designed with a small louver at the bottom of the door that meets the above legal requirement to put 1 x 9kg LP Gas bottle in this cupboard. This ventilation will also allow wood to breathe.

Note it is unsafe/illegal to put any combustible materials in the same cupboard as a LP Gas bottle. If you need to store both wood/charcoal and a gas bottle you will require 2 SEPARATE cupboards.
